**CITY ITEMS.**

**BOARD OF NAVAL EXAMINERS.**—The Board of Examiners of applicants for appointments in the United States Navy, met again on Tuesday at the office of Messrs. E. & G. W. Blunt. A number of new applications were made, and the candidates briefly examined. The Board has increased confidence in the expectation of being able to furnish the Government with a class of commanders and shipmasters who know their duty well, and who have all the energy requisite to fulfill every obligation. The Board continues to receive applications, and for this purpose meet again to-day.

**THE STEAMSHIP MATAZAN.**—The steamship Matazan, for Matanzas, which was to have sailed to-day, will not leave this port before Monday afternoon. Her engine is undergoing repairs.

**BELL'S HEAD.**—The market for beef cattle in Forty-first street, for the week ending yesterday, closed unusually hard for drovers—very fair quality of Western Steers, suitable for the retail trade, selling at prices only equivalent to 7 cents a pound for the net weight of beef, when slaughtering. All other breeds' animals sold at lower figures at the close than at the beginning of the week. The market was overstocked with all kinds, particularly sheep and lambs, and swine. The police are taking action against the hog slaughtering houses, which it is expected will affect the live hog market, unfavorably for drovers. Our readers will find an interesting comparison in the market report between the London and New-York live stock markets. Also, the way to look are brought here by rail in these hot days, August days nearly lost with only one duck and no feed, and scarcely any rest. Can the meat of such fevered animals be healthy?

**THE THIRD DOUBLE-TROT.**—The third contest between Flora Temple and Ethel Allen and mate will be made on Union Course this (Thursday) afternoon. Flora goes to harness as before, and the mate as before is for male heats best three in five. We judge that the time made will be better than ever before, but very much doubt if a paying crowd will gather to witness it—such is the feeling of disgust and exasperation in sporting circles at the unprincipled jockeyism displayed on the previous occasion. The structures of *Wilkes' Sport* and other sporting papers are even more severe than our own, and we are not without hopes that if they persist in the good work some substantial reform may soon be inaugurated. If it should not we predict the speedy decline of trotting on the American turf, and the withdrawal of our best horses from public performance.

**COMMISSIONERS OF EMIGRATION.**—The weekly statement presented yesterday at the meeting of the Commissioners of Emigration, G. C. Verplank in the chair, is as follows:

Number of emigrants arrived in July 31, 1861	50,543
Number of emigrants arrived since Aug. 1, 1861	9,600
Total	60,143
Number of emigrants in transit in July 31, 1861	17,733

**HEROIC CONDUCT.**—Yesterday afternoon, just as the Sylvan Grove was leaving her dock at Peck slip, a young man attempted to jump aboard, but, missing his footing, fell into the water, and being unable to swim, would certainly have been drowned but for the coolness of Sergeant Garland of the Harbor Police, who fortunately happened to be near the scene, and by the most skillful management of his boat succeeded in drawing the young man in. Just as he was about to sink, Mr. Cloak, of the firm of M. Ward Cloak & Co., gallantly jumped in after the drowning man before the boat appeared, but the strong tide prevented his reaching him before the opportune arrival of the Police boat.

**UNION CAMP-MEETING.**—There is a Union Camp-meeting now in progress in a beautiful grove about ten minutes' walk from Elm Park, S. E. A general amnesty has been issued to visitors and laymen. Ample refreshments are on the ground. Boats leave the Dock of Commodore at 8 o'clock a. m.
